

Draft Proposal Template for Collaborative Research Project

Project Title: Provide a descriptive title for your proposed project.

1. Contact Information

- Name of Primary Investigator(s)
- Institution/Organization Affiliation
- Email Address
- Phone Number

2. Executive Summary

- Brief overview of the proposal (2-3 paragraphs)
- Key objectives and anticipated contributions to the project themes (On-Demand Learning and Smart Learning or AIGC in Education)

3. Background and Relevance

- Context for the proposed research
- How the research aligns with the themes outlined in the call for proposals

4. Objectives and Research Questions

- List specific research objectives
- Define key research questions or hypotheses

5. Methodology

- Describe the proposed research methods (e.g., qualitative, quantitative, or mixed methods)
- Outline any technological tools or platforms to be used, especially if focusing on AIGC or Smart Learning Environments
- Include a timeline with milestones for each research phase

6. Expected Outcomes and Impact

- Outline expected results and contributions to educational technology
- Describe the potential impact on smart learning environments or on-demand learning practices

7. Budget Estimate

- Provide an initial budget breakdown (within \$8,000 - \$15,000 range as indicated)
- Justify major expenses based on research needs

8. Evaluation and Success Metrics

- Define how you will measure the success and impact of your research
- Identify any benchmarks or evaluation methods (e.g., publication targets, development of learning modules, etc.)

9. Team and Expertise

- Brief background of key team members
- Relevant expertise and previous work in educational technology, AI, or smart learning

10. Appendix (optional)

- Include supplementary materials if needed (e.g., preliminary data, relevant publications, etc.)

Submission Instructions

- **Format:** PDF or Word Document
- **Length:** No more than 10 pages
- **Deadline:** December 30, 2024, for the 1st stage
- **Submission Contact:**
